Professional Summary

Full-Stack Developer passionate about building real-world, scalable web applications. Strong problem-solving skills with hands-on experience across frontend, backend, databases, and AI integrations. Actively develops production-grade projects, keeps learning new skills and technologies, and practices data structures and algorithms on LeetCode. Deeply interested in community-driven technology, content creation, and entrepreneurship, with a continuous learning mindset.

Skills

Programming Languages: JavaScript, TypeScript, Python, Java, C
Backend & APIs: Node.js, Express.js, Fastapi, Vercel AI-SDK, Prisma, Drizzle, Mongoose, Azure
Frontend Development: React.js, Next.js, Tailwind CSS,
Databases: MongoDB, PostgreSQL, SQL, Supabase, Firebase
Computer Science Concepts: Operating Systems, Computer Networks, OOPs, DBMS, Computer Architecture
Tools & Platforms: Git, GitHub, GitHub Actions, VS Code, Vercel, Supabase, Firebase, Cisco Packet Tracer, Canva

Experience

Full-Stack Developer (passtheexcellence.com) **Jan 2025 – Dec 2025**
PASS The Excellence Remote
Developed a full-stack website with features such as course enrollment, contact forms, quizzes, and online study resources.

Backend Developer (chemschool.academy**)** **Feb 2026 – June 2026**
Chem School Remote
Built secure authentication with email/password and Google OAuth using Better Auth, with RBAC for Admin, Tutor, and Student roles. Developed a custom **Admin Panel & CMS** for managing users, chemistry notes, chapters, blogs, and broadcast emails via Resend. Implemented a WordPress-style blog CMS with **Tiptap**, tutor booking, and role-specific dashboards for Admins, Tutors, and Students.

Projects

Sharda Social (https://sharda.social/) : Social Media Platform and Online Library for Sharda University Students built using Nextjs, Express, MongoDB, Cloudinary, Resend, Render. Allows students to create account, perform CRUD operations of posts and share study materials with each other. Reaches **1000+** unique visitors at peak with **200+** registered users.

PhotoMatch Ai (Live): AI based photo searching from large event albums by uploading just one selfie. Works on InsightFace's face analysis models using **cosine similarity based vector search**. Used typescript, expressjs, nextjs, fastapi, postgresql with pgvector and pgboss, cloudinary and ONNX runtime.

AuthHero (Live): Ready made authentication service built from scratch using typescript, expressjs, argon, postgres, prisma with email/password and oauth based authentication and multifactor authentication. Published on NPM and has **500+ downloads**.

Chess (Live): Developed a realtime two-player chess using typescript, expressjs, websockets.
RagChat : Developed a RAG based AI chatbot where the AI learn about the users as the users chats with the ai. Used vercel ai-sdk, nextjs and pgvector for vector database.

Education

Sharda University, Greater Noida, India
Bachelor of Technology (B.Tech) – Computer Science and Engineering *(2024 – Present)*
Cumulative CGPA: **9.5**
COMPEX Scholarship recipient, fully funded by the **Indian Embassy**
